

# CYPRUS

## Permanent Residence Permit Program

Cyprus is an attractive tourist destination with an excellent geographical location. It is situated at the crossroads of three continents: Europe, Asia, and Africa. The strategic location of the island has played a significant role in its development as a financial center. With its beautiful beaches and tropical Mediterranean climate, Cyprus is considered an ideal destination for permanent residence for non-EU nationals.

Cyprus has the lowest crime levels in the EU, a relatively low cost of living, and no inheritance tax. It has high quality health care and offers access to leading medical centers. Additionally, it is a brilliant destination for British education, with a wide range of private English schools and universities, giving access to Canadian, European, and USA universities.

Cyprus has been a full member of the EU since 2004. The legal system in the country is based on English statute and English common law. The country has a prosperous, freemarket, service-based economy, which has grown in recent years. Its efficient legal framework and regulations give foreign investors certainty to invest and grow.

In line with the Cyprus government's intent to increase foreign investment and to help its economic development, Regulation 6(2) of the Aliens and Immigration Regulations as well as Category F have recently been simplified by the Ministry of Interior in order to issue residence permits to applicants from non-European countries.

## Requirements

If applicants apply under Regulation 6(2):

The main requirement is **the purchase of new immovable property of a total market value of at least €300,000 plus VAT**. The applicant must also submit the application form, accompanied by a contract of sale and proof of payment of at least €200,000 plus VAT. The contract of sale must have been submitted to the Cyprus Department of Land and Surveys. The property can also be bought by a company provided that the company is registered in the name of the applicant or the applicant and their spouse and that they are the sole shareholders; OR

The applicant may **purchase up to two residential properties** (apartments or houses), or **one residential unit + one shop** (with a minimum area of 100m<sup>2</sup>), or **one residential unit + one office** (with a minimum area of 250m<sup>2</sup>), provided **the combined value exceeds €300,000**. The Government of Cyprus has specified that new properties qualify and can only be purchased directly from the developer. Furthermore, multiple units must be purchased from one developer.

In addition, the applicant must submit a **confirmation letter from a Cyprus bank stating that they have deposited a minimum of €30,000 from abroad into an account that will be locked for three years**. After the expiration of this period, the money will be released without restrictions

Finally, the applicant must provide supporting **evidence of a secured annual income of at least €30,000 deriving from abroad**. This income must increase by €5,000 for the spouse and for each child and by €8,000 for each dependent parent. This income may include salaries from employment, rent, pensions, and dividends from shares, for example.

The residence permit issued to an applicant covers the applicant, their spouse, and their children up to the age of 18, as well as parents of

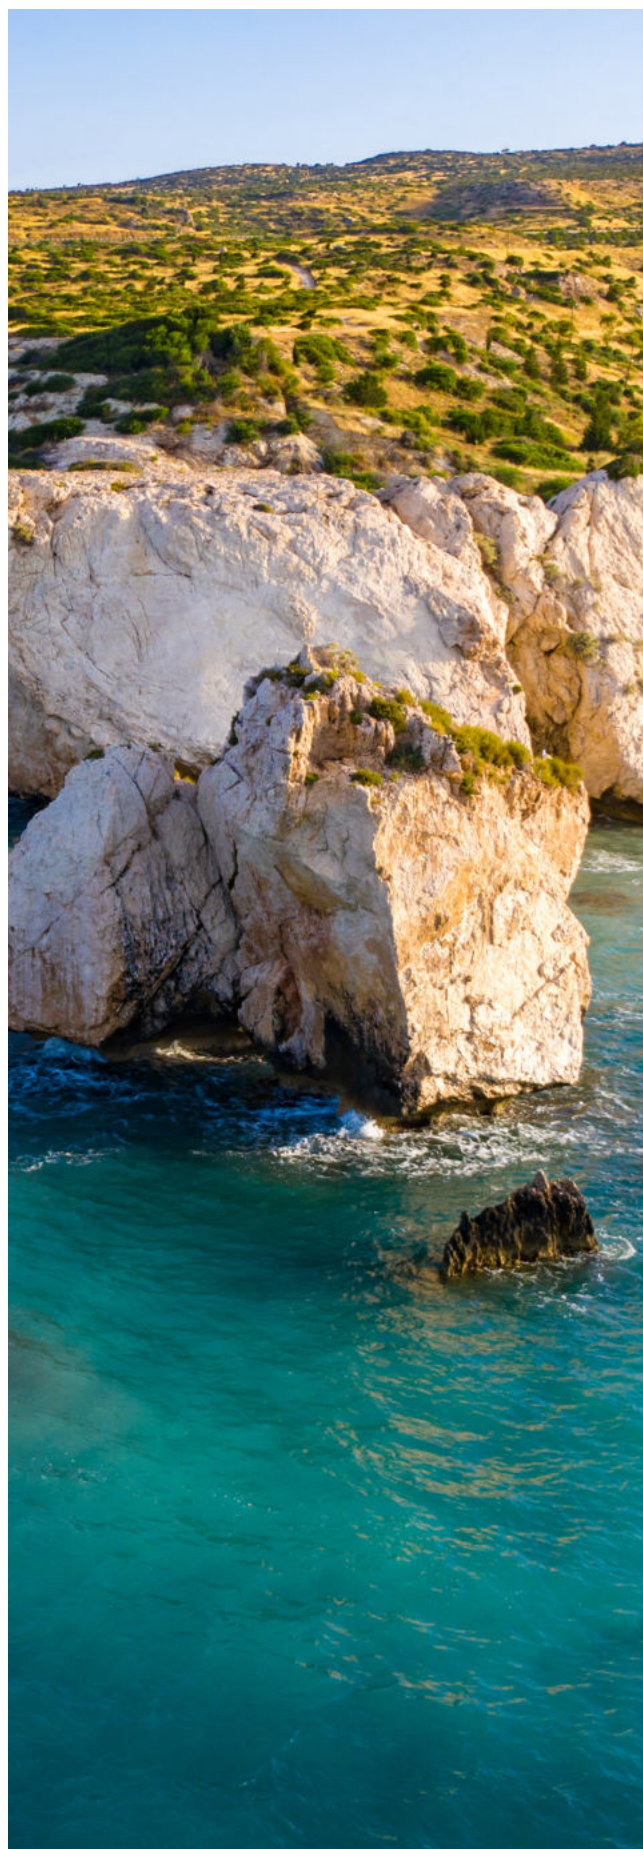

both the applicant and their spouse. Furthermore, unmarried and dependent children between 18 and 25 years old are also covered under specific conditions, particularly if they are undergraduate students with evidence of their enrollment at a tertiary institution. In this case, the parents must present an additional annual income of €5,000 for every such dependent child. Every dependent child must submit all the required documents with their application.

The parents of the main applicant and their spouse are also entitled to acquire permanent residence permits without purchasing additional real estate. The main applicant must prove additional income of at least €8,000 for each dependent parent. A separate application must be submitted for each dependent parent.

A residence permit may also be granted to children of the applicant who are over the age of 18 and who are not financially dependent on the applicant, provided a property is acquired for each child for a market value of at least €300,000 (excluding VAT). A confirmation of payment for 66% of the market value of the dwelling must be submitted with the application. The non-dependent child must submit all other supporting documents required by Regulation 6(2) with their application, such as the secured annual income of at least €30,000 and a deposit into an account with a minimum value of €30,000, fixed for three years.

In all cases, the applicant, their spouse, and all dependents included in the application must have a clean criminal record from their country of residence. Furthermore, they must not be included in the list of persons who have a freezing or confiscation order of property within the boundaries of the EU. The applicant and their spouse and all dependent children over the age of 18 must provide a declaration that they do not intend to be employed in Cyprus. All the documentation must be duly translated and certified. Another requirement is a health insurance policy for the applicant and their dependents. These conditions apply for both Regulation 6(2) and Category F applications.

### If applicants apply under Category F:

**01** The main requirement is **the purchase of new or resale immovable property with no limitation on the value**, purchased by the applicant (or a company where the sole shareholder is the applicant or the applicant and their spouse).

**02** In addition, the applicant should **open a bank account in Cyprus and deposit the amount, without any limitation**. Bank statements should be included in the application.

**03** Finally, the applicant must provide supporting **evidence of a secured annual income of at least €10,000 derived abroad**. This income will increase by €5,000 for each dependent.

## Procedures and Time Frame

A fee of €500 is payable with submission of the application. The application will then be examined by the Civil Registry and Migration Department and will be submitted to a permanent secretary of the Ministry of Interior for a decision within two months. Under Category F, the application is submitted only to the department, and a final decision is expected within 18 months. The applicant, spouse, and dependents need to visit the migration office in Nicosia in order to capture their biometrics. Their visit can take place either with the submission of the application, during the application process, or immediately after approval.

Once approval has been granted, the applicant and all the family members included in the application must visit Cyprus within one year to obtain the actual residence permit.

## Taxation

<b>Personal income tax</b>	<b>Cyprus tax resident</b>	<b>Cyprus non- tax resident</b>
Condition	More than 183 days/ year in the country	Less than 183 days/ year in the country
Taxation Apply	Subject to income tax on the worldwide income with the progressive tax of 35% after €19,500	Cyprus - source income only
Dividends Tax	0%	0%
Inheritance Tax	No tax applied	
Capital gains from the selling of shares	0%	

**Real estate property Tax for personal resident:** The property tax rate for residential property is 5%

**V.A.T. standard rate:** 19%

**V.A.T. reduced rate** of 0%, 5% and 9%. Certain supplies are zero-rated or exempt.

**Corporate income tax: 12.5%.**

## Citizenship

Residence permit holders are entitled to apply for Cypriot citizenship through naturalization (thereby enabling qualification for a Cypriot passport) after seven years of holding a residence permit, provided they have resided in Cyprus for five years prior to their application.

## Key advantages

- ✓ The application procedure is highly efficient and can be completed **within two months under Regulation 6(2)**, or 18 months if applying under Category F.
- ✓ There is a **high approval rate** if all criteria are satisfied.
- ✓ It is not necessary to reside in Cyprus, but a **visit once every two years is required**.
- ✓ Dependents can be enrolled in high quality private schools offering English language courses.
- ✓ Residence applies to the whole family (applicant, spouse, and children under 18 years old).
- ✓ The whole process can be arranged without being present in the country, except for biometric capturing.
