

PORTUGAL

Residency by Investment Program

The **Portugal Golden Residency by Investment Program** was introduced in October 2012. The program offers a residency permit for a minimum of 7 days spent in Portugal in the first year and 14 days in the subsequent years (consecutively or non-consecutively) in Portugal. The applicants first receive their residency cards valid for one year. After the first year, the permit becomes renewable for two-year periods. Portugal Golden Visa allows for visa-free travel in Schengen countries alongside a residency and working permit in Portugal. It also allows for a path to citizenship after five years.

Besides Golden Visa, there also has two types of particular residence permit which are D2 and D7. **D2 residency visa** shall be granted to entrepreneurial immigrants seeking to invest in Portugal, provided that they have carried out investment operations; or to show that they have financial means available in Portugal, including funding from a financial institution in Portugal,

and to demonstrate, by any means, the intention to carry out an investment operation in the Portuguese territory. And **D7 residency visa** will issue for foreign pensioner or foreigners whose income derives from real estate properties, intellectual property in Portugal or from financial assets can be requested by a person who can prove to have the means to subsist for a period of no less than 12 months.

One of Europe's oldest countries, Portugal boasts a rich historical and architectural heritage. Luminosity, radiance and culture beam through the whitewashed villages and lush vineyards of this country positioned on the blissfully elegant shores of the Atlantic ocean. Portugal boasts a rich and diverse culture, Mediterranean climate, and a safe and stable setting ideal for raising families, conducting business or travelling. Investors find many opportunities in Portugal's secure and fast-developing market.

Process & Time Frame

The Investment Criteria should be determined when first visiting Portugal. After that, GIS would like to consult and offer reasonable options for your budget, then open Portugal bank account, take care of preparing, notarizing all the documents in English including the official forms, medical test, tax representation and real estate acquisition...) and other required documents that will be submitted to apply for the Program.

It is estimated that the process will take between two or three months from the submission of the application for the issuance of resident permit, provided that there are no areas of concern with the application. At this step, you will have to visit to Portugal to be present at the appointment with Portugal Immigration Office, and after that you will make a deposit payment for final acquisition of the real estate.

Once you have been notified by letter from the government that your application was accepted, you can complete the payment on your selected real estate property or other method you chose before. The government will not transfer or use the payment you deposit in the residency account until the resident permit have been issued to you and your family. After the government receives proof of payment on your investment, they will issue your resident permit.
